Product Code	Style / Pattern / Finish	Specifications & Comments

We will sample to the trade only. Some samples may be chargeable. All samples will be sent standard UPS Ground or USPS shipping. Should you require faster shipping, please include your UPS or FedEx account number with your request, or we can charge your credit card for the cost of the faster service.

The small sample you receive is generated from unusable material during or normal production process. It is not intended to represent exactly what you would order. Keep in mind any sample sent represents a very small portion of the surface of a sheet of tambour. We reserve the right to charge a small fee plus shipping and handling to individuals requesting veneer samples.
